Who Are *WE?*

At **Quatro**, we are more than just a company, we are off-road enthusiasts and outdoor explorers.

Based in **Ankara, Turkey,** we specialize in high-performance winches, production of high quality off-road accessories and rugged outdoor equipment designed for professionals and hobbyists.
Founded on a passion for the wild and a commitment to reliability, **Quatro** was created to serve those who don't back down from a challenge.
Trusted by adventurers across Turkey, we're proud to be awarded the title of **Turkey's Most Trusted Off-Road Brand.**
With over **40 annual sponsorships** of off-road events and organizations nationwide, we're deeply rooted in the off-road community, also having **25 distributers** and **400+ sales points.**

We don't just sit and watch, we also have a professional offroad racing team, competing in FIA and TOSFED's official championships.

TOUR OF OUR FACTORY

Offroad-Outdoor Equipments

Great products come from great factories. Let us walk you through a small tour of our great factory.

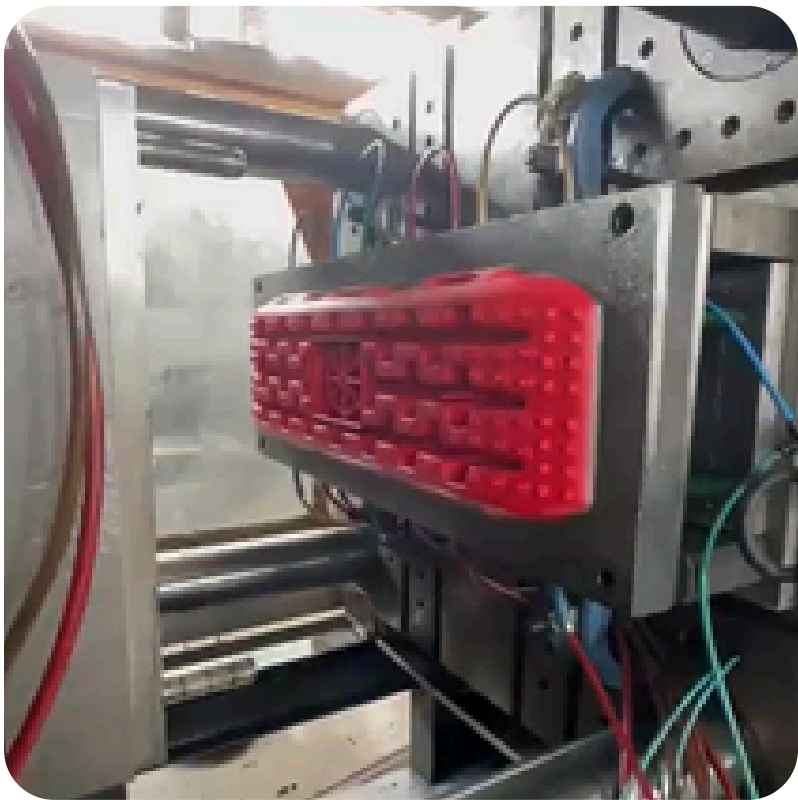
Large and Modern Facility

We manufacture the parts directly. Our factory is spacious and we posess every manufacturing tool needed to manufacture top-of-the-line recovery tracks.

High Precision Molded

Our molds are custom made and engineered to be perfect.

The tracks are made with high-quality polymers with we being present in every part of manufacturing.



RECOVERY TRACKS
WHY QUATRO?

Because of our proximity to EU you will not wait too long for your shipment. You will not be affected from geopolitical tensions from sea travel.

TARIFF FREE

This product has *Tariff-free transport* to the EU. This makes our products extremely cost-effective

---

FIELD TESTED

We sold hundreds, if not thousands of recovery tracks. After improving continously we perfected the plates.

NO MIDDLEMEN

We directly manufacture the underbodies ourselvesin our own factory. There is no middlemen to inflate the prices.

MEETS ALL REGULATIONS

We are commited to make sure our products meet the laws and standards of every country.

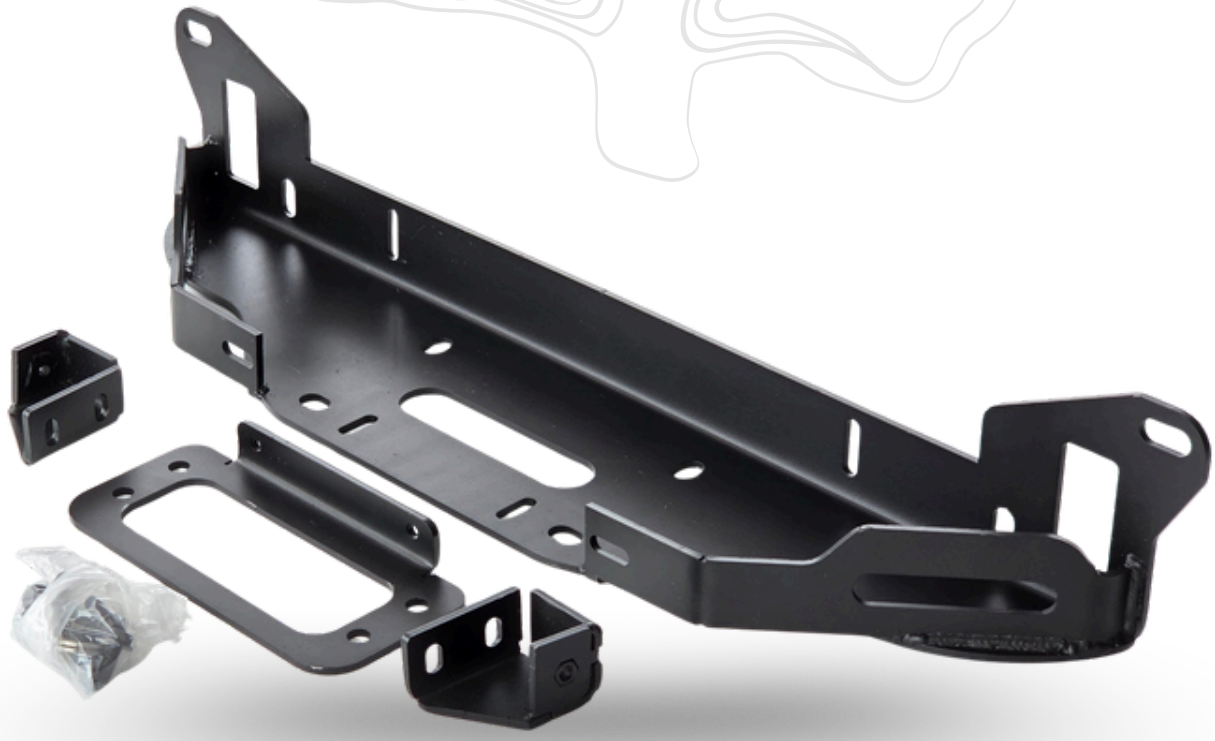
QUATRO
WINCH PLATE
FOR ALL WINCHES



ST37 Pure Steel

No Drilling Needed

Galvanized

6mm Sheet

716 Steel Paint

Quatro Winch Plates are compatible with all winch models. Mounting is done easily, so you don't need to use welding or cutting tools. Quatro Winch Plates will not block lights or any sensors in your vehicle thanks to its professional engineering.

WINCH PLATE
WHICH CARS?

SPESIFIC FIT FOR VEHICLE

Our plates are not universal. We design the plates spesifically for each vehicle. This ensures a perfect fit.

FIELD TESTED

Since we are one of the biggest electric winch importers in Turkey, we have great experience in mounting. These plates are engineered to perfection, tested every day by thousands of users.
