WINCH PLATE WHICH CARS?

SPECIFIC FIT FOR VEHICLE

Our plates are not universal. We design the plates specifically for each vehicle. This ensures a perfect fit.

FIELD TESTED

Since we are one of the biggest electric winch importers in Turkey, we have great experience in mounting. These plates are engineered to perfection, tested every day by thousands of users.

WINCH PLATE

WHY QUATRO?

It's very natural to ask this question.

Let's walk you through few of the reasons
why you should work with us.

LOGISTICS ADVANTAGE

Because of our proximity to EU you will not wait too long for your shipment. You will not be affected from geopolitical tensions

TARIFF FREE

This product has *Tariff-free transport* to the EU.

FIELD TESTED

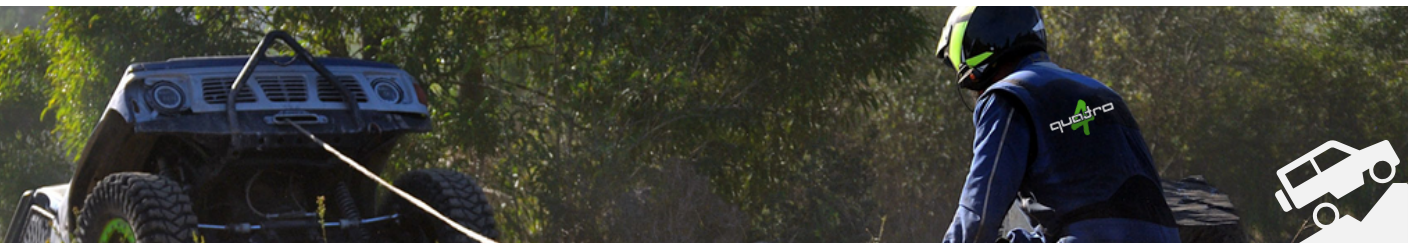

We sold hundreds, if not thousands of winch plates. Tested thousands of times by consumer and government contracts.

NO MIDDLEMEN

We directly manufacture the tracks ourselves. There is no middlemen to inflate the prices.

MEETS ALL REGULATIONS

We are committed to make sure our products meet the laws and standards of every country

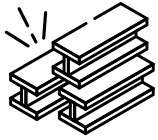

WHAT'S SPECIAL?

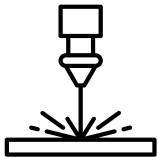

Folded Sheet

Our 3mm sheets have the strength of 4mm.

Galvanized

For maximum rustproofing

Laser Welded

Uniform welds for maximum looks and strength.

SALT TEST REPORT
